ARTISTTREE
Expert Craftsmanship on an Industrial Scale.

About Us

Artistree is your one-stop-resource for printing and framing, offering best-in-the-industry product and support.

We're a custom framing and fine-art printing manufacturer headquartered in Dallas, TX. We're here to assist businesses of every size with projects of any size. Looking to update your brick and mortar or online retail business with custom frames and fine art prints? We do that. Want to grow your business? We can help you develop personalized products and accessories and create solutions for online order fulfillment. Whatever unique fine-art printing or custom framing challenge your business may face, our expert team is here to provide a tailored solution that works, whether you're in need of a sourcing partner for materials or producing fully finished product.

Global Partnerships

We produce millions of frame orders every year. Many of our mouldings are fabricated at Carolina Art & Frame, our certified World Class facility in the heart of North Carolina's furniture manufacturing district. We also import new designs from manufacturers who meet our exacting standards in countries all over the world, including Spain and Italy. In short, we have the resources to fulfill orders of any size without sacrificing the quality you expect.

Industry Leader

We have over 30 years of experience in high volume frame and mat production, working with some of the largest retailers in the business. There's not much we can't do when it comes to mats, mouldings and printing. We can provide businesses with components like pre-made frames, architectural moulding and canvas, source specialty items for large and small retailers, and supply fully finished items like framed prints. We can even assist with e-commerce operations, creating API networks that make online order fulfillment simpler.

Unmatched Quality

Millions of retail customers choose our custom frames and mats for their most treasured photos and keepsakes every year. The quality of our product is what makes their decision, and we guarantee that quality for every order we produce. We have rigorous quality control methods in place to ensure that the order you receive matches the sample you selected, and that every order after is consistent with the one before. We manage a certification program for the manufacturers we partner with that takes into account everything from scalability and performance to growth and innovation. Additionally, we partner with Bureau Veritas, a third-party social accountability auditor, to ensure our business is a leader in sustainability. **Learn more at group.bureauveritas.com**

Design Innovation

Our expert in-house designers study current and upcoming trends in fashion and furniture, working to bring unique and stylish new options to consumers. Our core design principles include having a deep understanding of consumer insights, achieving great design at an affordable price, bringing new styles to market quickly and producing the highest quality product.
